

Resume

Marcelo Casillas

Career Objective

Pre-Med Biology major seeking pathways into aerospace research or astronaut candidacy. Bringing exceptional physical conditioning, proven leadership, and disciplined training from competitive Taekwondo. Interested in human physiology, high-performance environments, and mission-oriented teamwork.

Profile

Athlete, instructor, and academic high-achiever with a 4.2 high-school GPA and ongoing Pre-Med studies. Years of martial arts and athletics have built precision, endurance, and mental resilience—key attributes for demanding aerospace or research roles. Experience coaching diverse groups has strengthened communication and crew-coordination skills.

Experience

Senior Taekwondo Instructor

- Led structured training sessions requiring focus, safety awareness, and split-second decision-making
- Mentored students and maintained team cohesion as captain
- Demonstrated discipline comparable to astronaut physical and psychological conditioning

Math Tutor

- Applied logic, analytical thinking, and problem-solving
- Reinforced ability to communicate complex information clearly—useful in technical mission tasks

Restaurant Positions

- Thrived in high-pressure, multitasking environments
- Developed reliability and collaborative teamwork

Skills

- High physical endurance & stress tolerance
- Leadership & team operations
- Analytical reasoning | Quick adaptation
- Strong communication & instruction
- Mission-oriented mindset
